NAPOLEON, O., Nov. 10, 1881.

Tuesday's Elections.
But little news had been received up to going to press last evening from the elections held on Tuesday. The indications were that the Democrats had carried New York and Virginia.

JEFF. DAVIS has made \$50,000 out of his alleged History of the Rebellion.

ARTHUR, Grant and Conkling are having it all their own way now, or will have it so before long.

THE State of New York now has President, the Secretary of the Treasury and Post Master General.

EX-SENATOR POMEROY, of Kansas, "Old Subsidy Pom," of unsavory reputation, seems to be on intimate terms with the President.

JOHN SHERMAN is being investigated at Washington. It looks as though he would want whitewash by the hog-head in order to make things clear.

It is probable that Clark Wagoner will lose his position, as it is likely to be given to a brave soldier of Wood county. Old Whangdoodle will then morn for his first (?) born surely.

In the matter of the Speakership of the Ohio House, it is understood Hodge is getting over the most ground, and giving the largest employment to the persuasive methods of party politics.—Enquirer.

HON. W. W. ARMSTRONG, the talented editor of the Cleveland Plain Dealer, will deliver the annual address at the next meeting of the Ohio Editorial Association to be held at Youngstown, November 29 and 30, 1881.

The legal tests as to insanity, when made a plea of defense, are these: Did the accused know the nature of his act? Did he know the act to be criminal? Did he act under a delusion as to some fact which, supposing the fact to exist, would justify the act?

JUDGE WILLIAM KENNON died at his home in St. Clairsville yesterday, at the age of eighty-three years. He was one of Ohio's distinguished men, and during his long retirement from public life was firm in the affections and admiration of the older politicians. Judge Kennon made St. Clairsville his home in 1822, and was one of the most prominent among the many able lawyers and public men Belmont county has produced. He served as Congressman, member of the Constitutional Convention and Judge of the Supreme Court, and practiced law successfully after his retirement from the bench. For several years before his death he was afflicted so as to make speech difficult, but was, nevertheless, a man in whom visitors to St. Clairsville took a respectful interest, and in whom his neighbors took great pride. He outlived by many years nearly all of his prominent contemporaries in politics.—Cin. Eng. 3d.

The Scott-Drury Case.

We give this week the closing chapter in the Scott-Drury case, a matter which has been occupying the attention of our Court and people generally for a few weeks past. The case has been one of the greatest of its character ever before tried in the State, and while there is conflicting opinion as to the justice of the verdict, all must admit that the trial was a fair one, and that much testimony was developed during its proceedings which pointed to a complete acquittal. The interests of the State, the people, were ably looked after by Prosecutor Knapp, assisted by Walter Stephenson and J. R. Tyler. Mr. Knapp was untiring in his efforts to get at the facts, so that the law might be vindicated in every particular, and his efforts deserve praise. While this was true on the part of the prosecution, the defense was equally well guarded, through the watchful efforts of C. H. Scribner, John McSweeney, Judges Ritchie and Haag. The verdict of "Not guilty" will be accepted by all law abiding citizens, as it was rendered by twelve of our most worthy citizens, after a careful examination of the case in all its bearings. Judge Moore sustained himself with credit during the trial of the case, winning anew the respect of all. His charge to the jury is so clear and upright that we print it entire, so that our readers may have its benefit.

The New York Express thinks it would be a graceful thing for the U. S. to buy the Great Eastern and present her to David Davis as a summer hotel.

Foster's Latest Message to the Temperance People.

Rev. Lease, the Methodist preaching elder of this district, received the following dispatch yesterday, from Charles Foster: COLUMBUS, O., Oct. 12, 1881.

Rev. Lease, Kenton, Ohio: "A Methodist minister requests me to telegraph to you that there are enough of your number alive to bury those that are dead."

In justice to Mr. Lease, we would say that the publication of the above is without his knowledge, and would probably be against his wish, however, the public should always know the character of its officers. The above fully illustrates the coarse and boorish character of Foster. Mr. Lease's crime was that he would not support Mr. Foster, 308 citizens of Hardin County, of whom we understand Rev. Lease was one, said they could not agree with the course pursued by either of the great parties on the liquor question. They thereupon nominated a ticket to represent their opinions. No man has a right to question their sincerity and privilege to do this. It is the inalienable right of American citizenship. Charles Foster seems to be the only person who does not understand this, and proceeds to insult those who exercise their rights.—Kenton Democrat.

WINSTON, Forsyth Co., N. C. GENTS—I desire to express to you my thanks for your wonderful Hop Bitters. I was troubled with dyspepsia for five years previous to commencing the use of your Hop Bitters, some six months ago. My cure has been wonderful. I am pastor of the First Methodist church of this place, and my whole congregation can testify to the great virtues of your Bitters. Very respectfully, REV. E. FEREBEE.

SHOT BY A SUITOR.

A Young Lady Killed by a Man She Refuses to Marry.

TIFFIN, Nov. 4.—The firebell was tolled at about 10 o'clock last night, to announce to the citizens a terrible murder which occurred on College Hill. A young man by the name of Charles Madder, who was attending college here, shot and killed almost instantly, Miss Phoebe Bernard. The lady according to reports, was engaged to Madder and refused to attend a supper party on the street, east of the college, she was met by would-be admirer, who requested once more the young lady's consent, and, being again refused, he drew a revolver and shot her in the face four times, and death came almost instantly. Madder at once left the city in haste. An alarm was given, and the citizens are now in search of the murderer.

Madder came from Massillon, Ohio, and has been in attendance at Heidelberg college for several years, with a view of preparing himself for the ministry. He was always looked upon as more than an ordinary student. During the last year or so he has been the victim of brain disease, which is thought by many who know him to be the cause of deranging his mind, and that he was without doubt suffering from a similar trouble at the time he perpetrated this terrible and barbarous act. The whole city is aroused, and the excitement is intense.

The murderer has been arrested. A mob attacked the Tiffin Jail but was repelled by officers, and the guilty wretch was thereby saved being lynched by the infuriated people. The malitia was called out to protect the Jail. The prisoner was removed from Tiffin to Toledo for safe keeping. Insanity will be his plea.

According to Professor Ordway, the number of metals now known is seventy-seven. Within five years fourteen new ones were recognized; but none of them "have such novelty of character as to require the remodeling of chemical hand-books." The names of many of them simply serve "to burden our memory with symbols of things remote from daily life."

DOMESTIC BLISS.—"I never tire of reading 'Paradise Lost,'" said Miss Posigush, her eyes beaming with a dreary languor. "Don't you admire it, Mr. Crab?" "No I don't," replied Crab, crisply. "I used to read it, before I was married; but now I know what 'Paradise Lost' is without reading it." No wonder Mrs. Crab says Crab is a brute.

It acts with extraordinary power and efficiency on the Liver and Kidneys. The action of the Regulator is free from nausea or griping. It is most effective in starting the secretions of the Liver, causing the bile to act as a cathartic. When there is an excess of bile in the stomach, the Regulator is an active purger; after the removal of the bile it will regulate the bowels and impart vigor and health to the whole system.

The well known strengthening properties of IRON, combined with other tonics and a most perfect nerve, are found in Carter's Iron Pills, which strengthen the nerves and blood, and improve the blood and complexion.

GEORGE Washington may yet have a monument. Arrangements have just been perfected in Italy to erect one to Salustius, the historian, who died two thousand years ago.

Wm. McCarty, 88 Lloyd Street, Buffalo, N. Y., fell and sprained his ankle. His employer, H. Anderson, 94 Main St., procured some of THOMAS' ELECTRIC OIL, and he says that a few applications enabled him to go to work as usual. For sale by J. C. Saur.

From Sarsaparilla, Kent Co., Md.: I find that I sell as much of Dr. Bull's Cough Syrup as of all other cough remedies combined. J. E. Hartley, Druggist.

According to Professor Ordway, the number of metals now known is seventy-seven. Within five years fourteen new ones were recognized; but none of them "have such novelty of character as to require the remodeling of chemical hand-books." The names of many of them simply serve "to burden our memory with symbols of things remote from daily life."

DOMESTIC BLISS.—"I never tire of reading 'Paradise Lost,'" said Miss Posigush, her eyes beaming with a dreary languor. "Don't you admire it, Mr. Crab?" "No I don't," replied Crab, crisply. "I used to read it, before I was married; but now I know what 'Paradise Lost' is without reading it." No wonder Mrs. Crab says Crab is a brute.

The Great
SIMMONS
LIVER
REGULATOR
Unfailing Specific
—FOR—
Liver Complaint.

The Symptoms of Liver Complaint are uneasiness and pain in the side, sometimes pain in the shoulder, and is mistaken for rheumatism; the bowels are affected with constipation and sickness; the tongue is coated, sometimes alternating with lax; the head is troubled with pain and dull, heavy sensation of having left undone something which ought to have been done; often complaining of weakness, debility and low spirits. Sometimes many of the above symptoms attend the disease and at other times very few of them; but the Liver is generally the organ most involved.

REGULATE THE LIVER AND PREVENT Dyspepsia, Constipation, Jaundice, Bilious Attacks, Chills and Fever, Headache, Colic, Depression of Spirits, Sour Stomach, Heartburn, Piles, etc.

Sonic, Alterative, and Cathartic.—Simmons' Liver Regulator, purely vegetable, is the medicine generally used in the South to arouse the torpid Liver to healthy action.

It acts with extraordinary power and efficiency on the Liver and Kidneys. The action of the Regulator is free from nausea or griping. It is most effective in starting the secretions of the Liver, causing the bile to act as a cathartic. When there is an excess of bile in the stomach, the Regulator is an active purger; after the removal of the bile it will regulate the bowels and impart vigor and health to the whole system.
